

Northern Education Support Services

www.northerneducation.com

Northern Education

Northern Education was formed in 2000. We are one of the leading consultancies dedicated to supporting improvements in services to children and young people. We are a passionate group of education professionals who enjoy sharing our knowledge and using our skills.

Our mission is to be the best at what we do and deliver results.

“Working in partnership to fulfil the potential of children and young people.”

The difference is our relationships – we work with you as partners to support you to achieve your immediate needs and your long term goals. We have worked with a wide variety of schools for many years and across local authorities. Our reputation for quality assurance is described as ‘outstanding’ by external evaluators.

Recognised Authority

Northern Education has provided support to schools across the country and we are now working with providers of a wide range

of services to broaden that offer through our experienced team. In responding to your needs Northern Education has secured the loyalty understanding and shared values with a variety of independent high quality service providers who offer a wide variety of organisational support services that schools may need and want

Our Support Services Offer

Northern Education Support Services Division comprises some of the most outstanding private service providers with which Northern Education has worked.

Each of our service providers brings a wealth of experience to any project. We can, therefore, construct multidisciplinary teams if you wish to address major transformational programmes and more tailored teams to specific needs.

For example, it may be important to consider legal or financial solutions when considering structural change within an organisation to understand the interrelationship between the systems, people, and leadership aspects of the organisation.

Ensuring School Sensitive Services

We have applied our educational expertise to ensure that the services are:

- relevant to the needs of the school
- allied to the educational priorities of the organisation
- aware of the relationship with other services
- supported and challenged
- quality assured by Northern Education, including due diligence
- working to an agreed code of conduct
- providing a highly competitive quotation and keep within budget;
- exercising sensitivity in delivering the outcomes you wish for;
- delivering on time;
- operating a quality controlled, professional service

How We Will Work With You

Following our discussion with you we will tailor work to suit you and your timetable. This will either be done by Northern Education working with one of our approved companies or assisting you with a tender exercise drawing from these and our wider associated network of companies.

Our aim is to make this a simple one stop shop - straightforward and highly effective.
